# 1. Purpose of the Annex

During the development of the system, several issues were identified in the design of the daily exchange rate change calculation mechanism. As a result, the requirements specified in the Software Requirements Specification need to be modified as described in this annex.

## 2. Removed Requirements

### 2.1. Requirement 2.6.3

**Original:**

The system shall ensure the end date is later than the start date

**Reason:**

Analysis is based on a fixed-length period starting from a single start date; end date is no longer required.

## 3. Modified Requirements

### 3.1. Requirement 2.1.2

**Original:**

The system shall allow the user to define the analysis period (start date and end date) in yyyy-mm-dd format.

**New:**

The system shall allow the user to define the start of the analysis period (start date) in yyyy-mm-dd format.

### 3.2. Requirement 2.5.3

**Original:**

The system shall allow selecting an analysis period.

**New:**

The system shall allow the user to define the start date for the analysis.

### 3.3. Requirement 2.6.4

**Original:**

The system shall ensure that analysis period is valid.

**New:**

The system shall ensure that the analysis start date is valid.

### 3.4. Requirement 4.1.2

**Original:**

set\_period <*start\_date*> <*end\_date*>

**Description:** Define the time range for the analysis.

**Parameters:**

- *start\_date* - start date in yyyy-mm-dd format
- *end\_date* - end date in yyyy-mm-dd format

**New:**

set\_start <*start\_date*>

**Description:** Define the start date for analysis

**Parameters:**

*start\_date* - start date in yyyy-mm-dd format

## 4. Added Requirements

### 4.1. Requirement 2.3.5

**New:**

For aggregation purposes, a monthly aggregation shall be defined as 30 consecutive days starting from the user-selected start date.

### 4.2. Requirement 2.3.6

**New:**

For aggregation purposes, a quarterly aggregation shall be defined as 90 consecutive days starting from the user-selected start date.
